Reliability In Every Formulation

ETHER STRONG CURE AR

DESCRIPTION :

STRONG CURE AR is a white acrylic based emulsion for retaining water in concrete for effective hydration of cement.

PRIMARY USES :

- STRONG CURE AR provides a highly economical and efficient means of retaining the water in fresh concrete.
- The presence of water is essential to ensure the strength development in concrete.
- The membrane formed by STRONG CURE AR prevents concrete from premature drying out and therefore enables the process of hydration to proceed under optimum conditions.
- As a consequence, the finished concrete has a harder, dust free surface whilst drying shrinkage and crazing (hair cracks) are reduced to a minimum.

ADVANTAGES :

- Extremely cost effective
- Gives water repellent film
- Initial white colour shows areas treated.
- Waterproofing effect.

•

DIRECTIONS FOR USE :

STRONG CURE AR should be spray applied as evenly as possible to the freshly placed concrete when it just turns green.

ETHER CHEMICALS

Reliability In Every Formulation

TECHNICAL DATA :

Appearance : White Liquid

Specific Gravity : 1.00 gm/cc

Finished Film Appearance : White Liquid

COVERAGE :

1 litre covers 4.64 m² of area

PACKING :

STRONG CURE AR is available in 10 ltr, 25 ltr, 100 ltr & 210 ltr. packing

SHELF LIFE

STRONG CURE AR has a shelf life of 24 months from the date of manufacture if stored in cold, dry place in original packing.
